

## **JOB SPECIFICATION**

### **Experienced Social Researcher - quantitative**

£20-35k variable depending on experience

### **YORK CONSULTING - Achieving Excellence**

York Consulting is a leading socio-economic research consultancy with a national track record for quality and innovation. We specialise in:

- quantitative and qualitative evaluation
- social policy research
- economic impact analysis
- performance measurement.

We have a vacancy for an experienced quantitative Social Researcher at our Leeds office, with 2-5 years of experience of working in the areas of social research and/or quantitative analysis.

Strong candidates will have knowledge of policy development, service/project management and/or evaluation with a keen interest in one or more of the following areas:

- education and training
- children and young people services
- family support services
- health and social care sector.

Candidates will have a relevant degree and be able to demonstrate the key skills/potential required for consultancy in areas such as:

- good understanding of mixed methods research
- good research skills, use of quantitative packages such as Excel, Stata, SNAP or R and/or qualitative packages such as NVivo
- write reports that clearly explain analysis and results
- potential to influence clients, generate income, and write proposals
- conduct social return on investment (SROI) or cost-benefit analysis (CBA) for evaluations.

Ideal candidates will have a driving licence and own a car. Working within a dynamic team of multi-discipline consultants, activities cover primary and secondary research, analysis, report writing, presentations and proposal writing.

We will provide life assurance, income protection insurance, opportunity to be part of a pension scheme, 25 days annual leave (plus statutory holidays), on-going training and free parking in the centre of Leeds.
